# ENVIRONMENTAL WORKSHOPS

## CLIMATE ACTION

This workshop examines the main causes and impacts of climate change, and provides a deeper understanding of the current climate situation. We focus on positive actions we can take as both individuals and a community to combat climate change and call for climate action.

## FASHION FOCUS

This workshop explores unsustainable production and consumption of fashion and examines how the fashion industry contributes to environmental and social issues. We assess ways which we can help to create a more sustainable and ethical fashion-forward strategy.

## WASTE WARRIORS

This workshop opens our eyes to the waste we often forget about - food, water, energy and resources. It allows us to perform a 'self-audit' to understand what waste we contribute to the most, positive actions we can take to reduce our consumption levels and contribution to waste.

## CLIMATE JUSTICE

Climate change does not affect everyone equally. Climate change is not just an environmental issue, but it is also a social, ethical and human rights issue. In this workshop, we explore how we can advocate for climate justice and a "just transition" as individuals and in our community.

## PLASTIC PATROL

In this workshop we explore the good and the bad sides of modern plastics, and the impact which plastic production and pollution has on the environment, wildlife and humans. We discuss positive actions to reduce our plastic dependency at both an individual and community level..

## EXPLORING ECOLOGY & BIODIVERSITY

This workshop explores how all living things are interconnected and how biodiversity is important for healthy environments and human health. We explore the impact which we can have on biodiversity and discuss some of the positive solutions we can take to protect biodiversity on a local to global level.

## 6-STEPS-TO-SUCCESS

This workshop is one of our most sought-after workshops. It introduces participants to good project planning, and helps them gain confidence to conduct their own environmental projects in their school, their community, or as part of the Young Environmentalist Awards.

## FOOD FOR FUTURE

This workshop takes a deep dive into the current food production system and the huge impact it has on our environment, waste, and sustainable development. We discuss possible actions to help create a more sustainable food system and positive changes we can make.

NEW

## CLIMATE CAMPAIGNING

Want to get involved in climate action but don't know where to start? This workshop gives a complete guide to youth climate activism such as writing to our TD's, climate campaigning, environmental actions and tips to help manage climate anxiety.

# MORE TRAININGS AND WORKSHOPS

## TRANSITION YEAR SUSTAINABLE DEVELOPMENT PROGRAMME

This 6-module course is completely based on education for sustainable development (ESD) and gives TY students an opportunity to explore different areas of sustainable development in more detail. We focus on both social and environmental sustainability, encourage the students to think critically and to assess their own habits, and gain confidence in voicing their opinions on sustainability issues.

## STUDENT COUNCIL TRAINING

This 3-hour training day offers a motivational space for the student council to think critically on how their school can improve their contribution to sustainable development. We will also explore the necessary skills to perform a school sustainability audit, discuss good project management and start brainstorming on ways the student council can implement sustainable changes during their term.

## WHAT YOUNG PEOPLE HAVE TO SAY

"I learned about the different actions that I can take and that I'm not too small to make a difference"

"It has been a very valuable experience and I will definitely use this knowledge to make a difference"

"I learnt that the more we work as a team, the more we can help the people around us and make the world a better place."

## PRICING 2022/2023

	One Off Workshop	Multiple Workshop
Online Delivery <sup>1</sup>	€200	€175
Blended Delivery <sup>2*</sup>	€175	€150
In Person Delivery <sup>3</sup>	€250	€200

Contact us for the 6 Week TY Sustainable Development costs

- We can offer a discount to registered 2021/2022 DEIS schools. Contact us for further details.
- If you have a specific topic you would like to see covered, or learning outcome reached, we can tailor our workshops to meet your needs. Please contact us to discuss your needs further.

1 – **Online delivery** means the full workshop is delivered live by our facilitator via a platform of your choice. Please note that for this option all young people will require access to their own devices (phones, computers, tablets, laptops, etc.) This price includes an environmental discount due to carbon savings due to travel.

2 – **Blended delivery** means pre-recorded videos and exercise materials are provided ahead of time for the educator to utilize, followed by a 30-minute online session with our facilitator at the end via a platform of your choice. This price includes an environmental discount due to carbon savings due to travel.

\* – Blended delivery is currently available for specific workshops. Message us for further details.

3 – **In-Person delivery** means our facilitator will attend your group and deliver the workshop in person as an in-school visit. Additional travel costs may also apply.

"The students had fun taking part in the programme, and I have noticed them becoming more confident in their knowledge and understanding of their role as active, engaged, global citizens" - teacher feedback.

# WHO ARE WE?

## We are ECO-UNESCO!

Ireland's environmental education and youth organisation. We deliver fun, informative and interactive environmental workshops for participants ages 10–18. We have more than **30 YEARS' EXPERIENCE** delivering environmental education across Ireland.

# OUR WORKSHOPS ARE DESIGNED TO

- Be fun, engaging and informative.
- Ensure participants can think critically.
- Develop a deeper understanding of sustainable development and the natural environment.
- Leave participants confident in their ability to take action.

# OUR EXPERTS DESIGN OUR WORKSHOPS TO

- Support the post-primary school curriculum (Junior Cycle – CSPE, Geography, Science, Business Studies; Senior Cycle – Politics & Society, Economics, Geography)
- Support existing youth groups and projects.
- Be an excellent platform for CSPE Action projects and TY Action projects.
- Promote personal development.
- Compliment environmental education initiatives.
- Include recent and relevant information and provide expert knowledge.
- Link with the Sustainable Development Goals (SDGs).
- Engage and empower participants with solution-based activities.

# WORKSHOPS STRUCTURE

- 80 to 120 minutes in duration, catered to suit your needs.
- Tailored to young people 10–18 years of age.
- Adaptable to your learning objectives.
- In-person workshops are suitable for a maximum of 30 participants
