

Environmental Workshops

We provide expert environmental workshops for young people across the island of Ireland. Our workshops are available to schools and youth groups, offering a dynamic and engaging experience tailored to empower young people. Each workshop is designed to foster a deeper understanding of sustainability through interactive activities and peer-based learning, supporting the school curriculum and promoting personal development.

Workshop Structure

- 90 minute workshops
- Tailored to young people ages 10 - 25
- Can accommodate up to 30 participants per workshop
- Flexible delivery options: In person, live online, blended delivery or pre recorded
- Follow-on resources to guide you after facilitation

ECO-UNESCO's Learning 2 Change programme is part-funded by WorldWise Global Schools

Our Workshops

Climate Action

Deepen your understanding of climate change and explore positive actions to combat these threats.

Fashion Focus

Take a peak into the fashion industry and its impact on people, planet and animals as we assess more sustainable and ethical fashion choices.

Waste Warriors

Open your eyes to forgotten waste and explore actions to reduce our individual and collective consumption.

Climate Justice

Climate change impacts different regions and communities in varying ways. Discover its global effects and learn how to engage in climate justice.

Student Leadership Training

Learn what it takes to be a leader in your community. Develop new skills and put sustainable development into practice.

Exploring Ecology & Biodiversity

Dive into the importance of biodiversity in our world and explore positive solutions to protect our ecosystems on a local and global level.

6-Steps to Success

One of our most popular workshops! Gain skills and confidence to conduct your own action projects in your school, community or as part of the Young Environmentalists Awards.

Food for Future

Investigate the current and future food production systems and examine actions to help create a more sustainable planet.

Marine Life

Explore life below water and dive into action to protect our aquatic ecosystems.

Our Pricing

	Workshop - One off	Workshop- Multiple

** Additional travel costs may apply

More Training

TY for Sustainable Development

This 6 module course is based on education for Sustainable Development and gives TY students the opportunity to explore both social and environmental sustainability, encouraging them to think critically and gain confidence in using their voice.

ECO-Academy

You can also access our workshops at any time on our ECO-Academy. Courses can be completed at your own pace and provide education for sustainable development at a time and place that suits you.
